NOSE IS BROKEN BY KICK OF A VICIOUS COW

LENNIE, FIVE LEAR OLD SON OF MR. AND MRS. ADDISON MISSMAN.

WAS PASSING THROUGH STABLE

Little Son of James McCrystal Fell and Broke His Arm While Playing.

Lennie Missman, the five year old son of Mr. and Mrs. Addison Missman of South Dixon, was severely injured Thursday evening by being kicked in the face by a cow. The little fellow had been playing in the barn yards and went into the cow stable to secure a door knob which his brother had thrown inside. While passing along the stable to the rear of the cows, a particularly vicious bovine struck him in the face, breaking the nose and badly bruising him. He was immediately placed in the care of a physician and the wound dressed. The little fellow is resting comfortably today.

Child Breaks Arm.

The little son of James McCrystal on Hennepin avenue, fell and broke his arm while playing in the yard with his father Wednesday evening.

MUCH KEROSENE DISCOVERED WHILE PUTTING OUT FIRE

Sterling Firemen Had To Make Two Runs To a Fire Last Night.

Sterling, Ill., July 13—Special—The residence of Mrs. Jane Grady in this city was partially destroyed by fire at midnight last night, and in putting out the flames the firemen discovered that both the carpets on the lower floor as well as the rooms of the upper floor were saturated with kerosene. After throwing much water and returning to the fire hall the department was called to the house a second time a half hour later by the renewal of the flames. It is impossible at this time to explain the presence of the kerosene in the house. Mrs. Grady is in Rock Island, having left for that city at 4 o'clock yesterday afternoon. It is not known whether there is any insurance on the property.

ATHLETIC PARK CARNIVAL AN EVER POPULAR RESORT

Patterson Brainerd Shows Again Visited By a Large Crowd, Well Pleased and Satisfied.

Another large crowd attended the carnival last night. The rain early in the evening kept a good many from attending but the country was pretty generally represented, however, and they enjoyed the fun immensely. The Ferris wheel seems to be the attraction now. The Navajo girls are holding their own and pleasing everybody.

Rosa Lee, the sweetest, brightest, daintiest and most charming lady on the grounds, is seen by admiring crowds nightly.

J. T. Potter, the most noted moving picture man in the country, shows to several hundred at every performance. When it comes to moving pictures Potter is ahead of them all. When you see the Train Wreckers and the San Francisco Fire you see the best moving pictures ever made.

The feature show of the whole carnival is the Stadium, and this show continues to do a big business.

What you have not already seen, see tonight, and be sure you see every show on the grounds for you will never regret it.

Looking For Two Murderers.

Sheriff C. H. Wohnke has received a circular from C. A. Gillaspy, Chief of Police of St. Louis, containing a description of two colored men, Stewart Thomas and Frank Townsend, wanted for murder committed in St. Louis on the night of July 4. The circular has a good description of both men and a likeness of Townsend.

MAYOR KEMP IS HELD TO THE GRAND JURY

Tampico Executive and His Aaids Are Bound Over In the Temperance Fight.

Sterling, Ill., July 13—Mayor H. Kemp of Tampico, Marshal James Daly and Assistant Marshal Charles Zuhl were today bound over to the grand jury of Whiteside county, on the charge of illegally arresting John Blacklund and Herbert Dennison, temperance aldermen of Tampico and forcing them to attend a meeting of the city council. They are also charged with false imprisonment, as the two aldermen maintain that while they were in the city hall the license men maintained at guard at the door and they were unable to leave. Tampico is divided into two hostile camps over the affair.

Tampico, July 13—A wild, shrieking mlose at midnight alarmed the camps. For a while it was feared that one of the temperance aldermen was being scalped. On the contrary it was merely the town pump being operated by a stray tramp the disturbance subsided.

MRS. E. E. FISHER DIED THIS MORNING

Has Been Resident of Dixon and Vicinity Since 1860—Funeral to be Held Sunday.

The wife of Supervisor E. E. Fisher died at 8:30 o'clock this morning at her late residence, corner Highland avenue and Eleventh street, in this city. The funeral services will be held Sunday afternoon at three o'clock at the Lutheran church in this city, Rev. W. L. Rutherford officiating. Interment in Oakwood cemetery.

Mrs. Fisher was confined to her bed since June 18.

Frederica Ditman was born in Brussow, near Berlin, Germany, Sept. 23, 1834. In 1855, then a young lady, she came to America, Sterling being the place of her destination. In Sterling she was married to Mr. Fisher Oct. 25, 1857, residing near that city in Jordan township until 1860, when they moved to South Dixon. Mr. and Mrs. Fisher moved to Dixon in the fall of 1893.

To Mr. and Mrs. Fisher eight children were born, six now living and two dead. One died in infancy, the other, the wife of H. R. Brooks, died several years ago. The children living are: Mrs. Louis Lievan of Marion township; Eldena H., of South Dixon township; William F., of this city; Henry E., of Nevada, Ia.; David J., of Clyton, Minn., and Mrs. David Spencer, of this city.

Had Mrs. Fisher lived until next year she and her husband could have celebrated their golden wedding anniversary.

The deceased was a lady, kind and pleasant to all with whom she came in contact. In the community where she resided she was an example of goodness and purity. She always had a kind word for all, rich and poor alike. She was a good mother to her children and a faithful helpmate to her husband.

PLAYED WITH MATCHES; IS TERRIBLY BURNED

The eight year old daughter of Charles Sanderholm, Rockford, was painfully and perhaps fatally burned while playing with matches shortly before noon Wednesday.

The little girl was lighting matches and in some manner her dress caught fire, enveloping her in flames. The mother, who was preparing the noonday meal, rushed to the girl's aid and smothered the flames, but not until painful burns had been suffered. The flesh on the right arm, throat and body was reached by the flames and burns so that the victim will have cause to remember for some weeks.

May Lose His Leg.

Louis Vitton, an Italian, had a narrow escape from death at Sterling Thursday while attempting to pass between a train of freight cars on the avenue B crossing. The accident resulted in the wheels of one of the cars passing over the right leg, crushing and causing a compound fracture of the knee, and if hospital treatment cannot be promptly secured it will be necessary to amputate the leg above the knee.

Better Cigar Values at Lower Prices Than Ever Sold Before

A Direct-dealing Plan That Cuts Out Four Profits and Much Expense

NATIONAL CIGAR STANDS

Figure It for Yourself

National Cigar Stands give the smoker just what every man would get if he could—*wholesale* rates on *retail* purchases.

Everybody knows how much he saves when he is able to buy a suit of clothes or a pair of shoes, or a gun or anything else at the *wholesaler's* price. He saves the *retailer's* profit; usually 20 to 30 per cent.

When a man buys cigars at a National Stand he saves, not merely one profit, but three or four. Instead of saving 20 to 30 per cent. he saves nearer 50 per cent.

This is because all the 2,000 drug stores which conduct National Cigar Stands concentrate their cigar-buying in a *single co-operative concern*, which is thus given

The Greatest Retail Cigar Outlet on Earth

With 2,000 established retail stores to provide cigars for, this concern becomes a power in the tobacco market big enough to own its own brands, control its own factories and be its own producer! Each of the 2,000 stores is thereby virtually a partner in a tremendous cigar-producing business. Each gets its goods *direct* and at *low cost*—paying no jobbing profits, no fancy dividends, no expenses of traveling salesmen. It can and does *retail* at the usual *wholesale* price—or even less.

That is why a cigar like

NATIONAL CUBA-ROMA NATIONAL

Can be sold at Five Cents each

In leaf-quality, workmanship, fragrance and general smoking satisfaction it is a *better* cigar than was ever sold at 3 for 25c. All clear Havana, and good, ripe, selected leaf at that.

"Cuba-Roma" is one of 30 brands owned and sold exclusively by National Stands. All classes of cigars are included, all tastes and purses suited.

Every cigar in the line is nearly twice better than you have ever got before for the price.

Trying is believing.

"IT SAVED MY LIFE"

PRAISE FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life, and I cannot express my gratitude to you in words.

Mrs. T. C. Willadsen

"Before I wrote to you, telling you how I felt, I had doctored for over two years steady and spent lots of money on medicines besides, but it all failed to help me. My monthly periods had ceased and I suffered much pain, with fainting spells, headache, backache and bearing-down pains, and I was so weak I could hardly keep around. As a last resort I decided to write you and try Lydia E. Pinkham's Vegetable Compound, and I am so thankful that I did, for after following your instructions, which you sent me free of all charge, I became regular and in perfect health. Had it not been for you I would be in my grave to-day.

"I sincerely trust that this letter may lead every suffering woman in the country to write you for help as I did."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of an organ, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

REGIMENTAL REUNIONS AND FORTY-THIRD ANNIVERSARY BATTLE CHICKAMAUGA,

Chattanooga, September 18-20, 1906.

On September 18, 1906, will occur the forty-third anniversary of the Battle of Chickamauga. It is proposed to celebrate this memorable event with a reunion of the various regiments that participated in this memorable battle and the various battles fought around Chattanooga. This reunion will be held at Chickamauga National Park, September 18, 19 and 20, and the present indications are that it will be the largest and most notable gathering ever held in the South. On the above dates, the remnants from the armies of twelve states, comprising the following: Pensylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Nebraska, Missouri, Kansas and Kentucky, will assemble, many for the first and last time since they marched from its blood-stained fields, forty-three years ago.

Here is one of the great opportunities for the education of the youth. Don't fail to take your children and show them historic Chattanooga, with all its historical connections. It is the opportunity of a lifetime. Go and see the old war generals and other officers point out the places of interest on the battlefield; let them show you and explain, in person, the markers erected on the battlefield showing the positions of the opposing armies at the time of battle. It will not be long until none will be left to do this noble work.

It will be many years, if ever again, that such an opportunity will present itself. See that your tickets read via the Louisville & Nashville R. R., the Battlefield Route. Call on your nearest railroad agent for rates and advertising matter pertaining to the reunion, or write nearest representative of the Louisville & Nashville R. R.

CLEVER ANSWERS.

Cases Where They Won Promotion in Civil and Military Life.

A long list might be given of men who have owed their advancement in life to a clever answer given at the right moment. One of Napoleon's veterans, who survived his master many years, was wont to recount with great glee how he once picked up the emperor's cocked hat at a review, when the latter, without noticing that he was a private, said carelessly, "Thank you, captain." "In what regiment, sire?" instantly inquired the quick witted soldier. Napoleon, perceiving his mistake, answered with a smile, "In my guards, for I see you know how to be prompt." The newly made officer received his commission next morning.

A somewhat similar anecdote is related of Marshal Suvaroff, who when receiving a dispatch from the hands of a Russian sergeant who had greatly distinguished himself on the Danube attempted to confuse the messenger by a series of whimsical questions, but found him fully equal to the occasion. "How many fish are there in the sea?" asked Suvaroff. "All that are not caught yet," was the answer. "How far is it to the moon?" "Two of your excellency's forced marches." "What would you do if you saw your men giving way in battle?" "I would tell them that there was plenty of whisky behind the enemy's line." Baffled at all points, the marshal ended with, "What is the difference between your colonel and myself?" "My colonel cannot make me a lieutenant, but your excellency has only to say the word." "I say it now," answered Suvaroff, "and a right good officer you will be."

A WOOD SAWING FLY.

The Tool With Which It Makes a Cradle For Its Young.

It is marvelous how many of the tiny creatures in the insect world conceal and preserve their eggs. Some will deposit them in extraordinary places; others will insert them in the skins of living animals; others, again, deposit their eggs where the young grub, after coming from the egg, finds food close at hand.

Among these last mentioned are insects who bestow great labor in the cradle of their young. The place they select is a hard part of a leaf or the woody branch of a tree. In this they saw out a hole large enough to contain their eggs, whence their name, saw flies. For this purpose they are provided with an ovipositor of peculiar construction. It consists of two long pieces closing like a sheath over a third.

In the tenthredo this third piece contains two little saws, each of which has been compared to the tenon saw used by the cabinetmakers. The tenon saw is single, but that of the tenthredo is double, consisting of two distinct saws. The insect in using them throws out one saw and while it is returning pushes out the other.

This alternate motion is continued until the cut is made, when the two saws, receding from each other, conduct the egg between them into its place. Not only is the edge of the saw notched into teeth, but on every tooth a number of smaller teeth appear.

Tit For Tat.

He rejoiced in the not very humorous name of Wood, and he prided himself on his jokes and smart repartee. Few of his friends had escaped the lash of his tongue, and he had victimised many by his practical jokes—in fact, he never lost an opportunity of being funny. One day he met a friend whose name was Stone, and naturally a name like that was too good a chance to miss.

"Good morning, Mr. Stone," he said gayly; "and how is Mrs. Stone and all the little pebbles?"

"Oh, quite well, Mr. Wood," was the withering reply. "How's Mrs. Wood and all the little splinters?"—Stray Stories.

Milk In the Sickroom.

Milk is the chief article of food and nourishment in every sickroom and hospital, and every physician and nurse should know the source of supply, its purity, before ordering it in any form for invalids and convalescents. It is not enough that it comes as "country milk." There must be integrity and experience back of it. It has been scientifically demonstrated and proved that pure milk products are the most nutritious, economical and easily digested foods when the milk is obtained in all its purity and kept so from pasture to consumer.—Charles Elley Hall in Leslie's Weekly.

The True Idealist.

Every human being, unless he lacks utterly the capacity to love, is an idealist. No man can boast that he accepts only the "plain facts" of existence as his guide posts. Love makes idealists of us all. Through love we are given the power to look beyond the crude husk we call the fact. Any great achievement is impossible without this power. Life thrills with meaning and magic for the true idealist.

The Change of a Word.

A prospective woman tenant through the typewriter's omission of one all important little word of two letters received the following startling statement: "Dear Madam: You can have the flat, provided you repaint and redecorate yourself!"

MR. HITT'S SUCCESSOR.

Editor Geo. A. Lyman in the Amboy Journal, says: Wm. P. Landon of Rochelle has been before the people as a candidate for congress from this district for several weeks, and from his speeches, the published sketch of his life, political platform, etc., a fair estimate of his qualifications and character may be obtained.

Mr. Landon, according to the authorized sketch of his life, is the son of an eminent jurist; was born and reared in comparative luxury, enjoying every advantage that wealth could give. He was never trained in the school of adversity nor did he pass through any of the experiences that develop self reliance, perseverance and force of character. He was sent to the best schools of the east, was graduated from several institutions of learning with honors, but has manifested no positive side to his character, and is merely drifting in life. He has been in turn a lawyer, a preacher, a traveler, a ranchman, returning recently to the practice of law; and at the age of 41 years is still unsettled in purpose, leading an aimless life with no definite plans for the future, and has taken up politics as a pastime.

The same defects and weakness of character are reflected in his religious life, and in his moral sensibilities—indicating an unstable and unsettled political belief and eccentric political ideas. He was brought up in the Presbyterian faith and ordained a Presbyterian minister; but he became a free lance in the field of religion and a free thinker in religious opinion. He cannot conceive of a standard of manhood and a high plane of moral principle that is superior to the temptations that go with the possession and management of great wealth. He declares, for substance in his criticisms of his opponent that Colonel Lowden as a member of congress could do no other way than submit to the demands of railroad presidents and trust magnates. The inability to conceive of a standard of political morality that is incorruptible, indicates a moral defect or moral torpidity in Mr. Landon that disqualifies him for the position to which he aspires .He would probably fall an easy victim to the temptations to which such a position would render him liable. From his own revelations of his life and character he is one of the most unfit men in the district that would aspire to the position of congressman. It is doing both him and the people of the district a wrong to encourage his candidacy.

His political platform, given to the public in a circular, consists of a series of commonplace platitudes and is really amusing in its sage rehash of trueisms, its originality of expression and peculiar vagueness where he feels that he is gettnig beyond his depth. The platform is a gem in its way, and comports well with the simplicity of character and goodness of heart of its author.

"I stand for the control of corporations," declares Mr. Landon, "not for an attack against them. They must be controlled even if it takes an amendment of the constitution to do it." He demands "publicity in all public service corporations," is in favor of the enactment of "new laws" where new laws are needed; favors the "punishment of flaggrant crimes" and proposes that if a "rich director laughs at a fine" he be made to "shudder at imprisonment."

Mr. Landon is against the custom of "watering stock," and the "use of corporation funds for bribery;" he stands opposed to "rich directors seizing the profits of corporations by ingenious devices;" would do away with "lobbies in the halls of legislation, rebates, special privileges," and protests against "underselling in one locality and making the profits out of the rest of the business," whatever that term may mean. "These and many other outrages," cries Mr. Landon with an earnestness that amuses if it does not alarm, "are undermining the honesty of our people and converting them into servitude." "I stand," he continued with a naivete that is winsome if not convincing, "I stand for trying to help stop the race to ruin."

Furthermore Mr. Landon is "for the Roosevelt 'square deal' both to corporations and to the people;" he believes that "machine politics" should be abolished; and that "the use of money to corrupt politics is a crime;" is in favor of electing United States senators directly by the people, and closes with the reassurance that "Upon other matters I agree with the general principles of the republican party, especially as interpreted by the administraation of President Roosevelt."

The election to a seat in the congress of the United States of a successor to our distinguished representative, Robert R. Hitt, is a matter of more serious import than we may now realize. The Thirteenth district has for a long term of years had the distinction of being represented by one of the most able, scholarly and accomplished men on the floor of the house. It behooves us to avoid risking too much of a contrast in choosing his successor.

Mr. Landon has led a blameless and harmless life, so far as we know, up to the present time; but he has not made a success of any business or calling he has entered upon, not perhaps from want of ability, but from defects and eccentricities of character that he cannot quickly nor easily overcome. He must succeed in some one of the humbler callings in life, develop a higher standard of political morality and show a proper appreciation of the dignity of the position and the vast responsibilities that go with it, but he can expect the republicans of the district to favor his candidacy.

Finish Long Auto Trip.

Mrs. Leonard Andrus and son Lex arrived here this morning from Chicago in a touring car after an overland trip of 1400 miles from Boston. The party has been on the road for three weeks and are well tanned from exposure to the sun.

HOME TELEPHONES NOW NUMBER 1,250

RAPIDLY INCREASING BUSINESS GIVES SUBSCRIBERS AN EXTENSIVE SERVICE.

FREE CONNECTION WITH 3,000

Farmers Lines Are Being Rapidly Extended and Good Service Is Appreciated.

Below we publish a list of names and numbers of Home Telephones which have been placed since May 1st. Subscribers of the Home 'Phone are urged to clip the list out and place it with their directory for future reference.

In an interview with Manager Louis Pitcher we learned that the Dixon Exchange now numbers twelve hundred and fifty subscribers which makes it the twelvth independent exchange in the state for size; in addition to these twelve hundred and fifty the company is giving service with over three thousand independent subscribers in nearby towns free of any toll or charge.

The demand for telephones this summer is unprecedented in the history of the company and especially in the surrounding country districts the farmers are ordering telephones so rapidly that the company is taxed to its utmost to supply service and at present is far behind with its work. The policy inaugurated last season of building good rural lines, using large poles placed close together has nearly eliminated trouble with the wires and enables the giving of fine service, which has proved to be a winner as evidenced by its trouble of not being able to put the lines in rapidly enough.

In the past week another section has been added to the farmer switchboard giving the present board a cacapity sufficient to serve four hundred telephones and apparatus for another farmer board has been shipped from the factory this week which will be installed during the coming week by an expert installer and switchboard man whose services have been procured for this purpose; this will give the company two farmer boards in addition to the nine Central energy or city switchboards and two toll or long distance boards, one of which has been added during the past winter to enable the company to efficiently handle its rapidly increasing long distance business.

GOOD WORDS SPOKEN FOR FORMER DIXON MAN

A. T. Scovill Is Resident Manager For Brown's Business College At Sterling.

With the purchase of the Sterling Business college by the Brown Business College company the management of the school there has been put in the hands of A. T. Scovill, formerly of Dixon. In speaking of the school and its management the Sterling Gazette says:

Mr. A. T. Scovill, principal and local manager, is well known in Lee, Whiteside and adjoining counties and his friends and former students will be pleased to learn of his again taking up school work in this locality. He is a member of the Methodist church and Y. M. C. A. A man of strong personality and thoroughly understands the work in which he is engaged, and we predict for the college, under his guidance, even greater successes than in the past. Mr. Scovill was raised in Lee county and received his first business training at the Dixon Business university in 1892, and later a normal school and thaining college, attending the Cedar Rapids and Peoria Business college for methods of teaching. For a number of years he was with the Northern Illinois college, Fulton, Ill. From there he went to Brown's Galesburg college where for a number of years he acted as principal of the commercial department. For the last two years he has been studying school methods in the east and acting as principal of the commercial department of the Pennsylvania Business college, Lancaster, Pa. Mr. Scovill is not only an educator but an accountant, having studied under Mr. Frank Broker, certified public accountant and dean of the University of Commerce of New York City. With his wide experience as accountant and ten years of successful teaching he is in a position to give his students a training obtained in no other school in this section. The young people of Sterling and vicinity are to be congratulated on having the opportunity of securing a training under one of so wide and successful experience in preparing young people for commercial life.

SIXTH WILL LEAVE FOR SPRINGFIELD JULY 20

Galesburg Dispatch Says Entire Regiment Will Be In That City For Encampment.

Galesburg, Ill., July 12—Captain D. K. Smythe of Company C left this morning for Springfield to attend to matters relative to going into camp at Camp Lincoln July 20. The regular drill was held last evening in the armory and the boys are rounding into good shape for the annual occasion. It is expected that between fifty-five and sixty men will go with the company. Seventeen new recruits have recently joined the company and Thomas Shea and Lloyd Putman have been made corporals. Sergeant Griffith has re-entered the company as quartermaster and has installed a new system of card-checking the stores, which is proving very successful. The entire Sixth regiment will be here for the Spanish-American War Veterans' encampment and will leave immediately afterward for Springfield.

Judge J. W. Watts returned to Franklin Grove last evening to join his family on the camp grounds.

FORMALDEHYDE IN STERLING MILK

CITY HEALTH OFFICER MADE SUCH REPORT TO THE PHYSISIANS' CLUB.

HOW ABOUT SUPPLY IN DIXON?

Says There Is But One Well Conducted Daidy In Vicinity of Sterling.

This is the time of the year when the milk dealers are tempted to put a preservative in their milk, which may be a good thing for the milk, but a poor thing for the people who have to use the milk. The health officer in Sterling made a test of the milk delivered there and the Standard gives the following result:

"The result of tests of milk sold by Sterling dealers is not very complimentary to the Northern Illinois cow or to milk dealers. There is at the present time but one well conducted dairy from which the public may obtain its milk supply."

Such were the statements of City Health Officer Dr. C. G. Beard, in a paper which he read at the meeting of the Sterling-Rock Falls Physicians Club Wednesday evening. The paper was on "The Milk Supply of Sterling" and presented the result of the tests which he has recently made, and which are of vital interest to all the people of the town.

And, by the way, the doctor has made these tests at his own expense, his moderate bill having been turned down by the council. He has been greatly hampered by lack of support from the city officials and no appropriation to carry on the work.

Stables Unsanitary.

In most cases the stables in which the cows are kept are in a very unsanitary condition.

"On dealer who delivers milk in Sterling and Rock Falls was found to be using a preservative called Isolene, which, when the milk was tested for formaldehyde gave it in large quantities. This dealer had a two per cent butter fat milk from ten short horn cows. The standard test for butter fat, the distinguishing quality of milk, is four per cent.

"When called before the health commission he explained that he was using a harmless preservative but he was not adulterating his milk further. In a few days it was given another test. No preservative was found but the milk was still low in butter fat.

"The milk ordinance has done a great deal for the public in this short time and will do more in the future. They can be grgeatly improved upon in adding a few sections relating to sanitation. It should also contain a section to control milk from those farms where scarlet fever, diphtheria and other contagious diseases exist. Also a section to the effect that milk containers should not be delivered to or taken from premises where contagious diseases exist."

Old Engineer Is Dead.

Alexander Anderson, for many years an engineer on the Chicago & Northwestern railroad, dropped dead Thursday morning in Clinton. He went to the Northwestern yards for the purpose of taking out his engine, the run being over the Animosa division. As he reached the yards he was seen to clutch at his breast and fall dead. He was born in New York in 1834, and had been a railroad engineer for the past forty years.

Seven Children Drowned.

Cedar Rapids, Ia., July 13—Eight girls were drowned, one after another, in an attempt to rescue the smallest of their number, in the river at a family picnic today, hardly three blocks from home.

DEMENT TOWN DOINGS

F. R. Burton was here Thursday on business.

Harvey took another Thursday afternoon. Two were ready today.

Frank Spear visited friends on the avenue Thursday.

The graders who have been working on the Illinois Central yards have completed the work and moved today to Rockkford.

Twenty-four went to the races at Mendota Thursday afternoon. The card was good and everyone enjoyed the meet.

A traveling man at the Northwestern depot this morning mentioned to a circle of friends the expensive hotels of the city. "Why," he said, "I even had to tip the water can this morning to get a drink of water."

The Pollywogs enjoyed an outing at Arion park Thursday afternoon and a most enjoyable time was had by all present. One deplorable circumstance that was noticed was the absence of the secretary, who was compelled to stay at home.

Charles Dykeman went fishing this morning. When he got back he excused his condition by saying it rained, but his friends say he either fell in or used his clothes for a landing net.

A Dementtown groceryman purchased a number of pedigreed roosters and hens from a downtown fancier one day last week and spent the day preparing roosts and nests for the accommodation of the fowls. This morning he came in through the back door with a disgusted air hanging heavy about him and remarked, with all seriousness: "I've been stung on that chicken deal. Those darn hens sit around all day long and do nothing."

An incident which happened in a class in the White Brick school last term has just come to light. One day at Latin recitation "Rat" was so drowsy that when the professor asker for the conjugation of a certain verb he failed to catch it, and turning to his bosom friend inquired: "What verb?"

Damfino," whispered his classmate.

"Damfino, damfinare, damfinavi, damfinatum!" said "Rat" to the horrified professor.

A Famous Newspaper Man.

William E. Curtis, the famous correspondent of the Chicago Record-Herald, writes a two-column letter to his paper every day in the year without intermission. His powers of sustained work are as great a marvel as his faculty of always making his matter interesting.

Probably no other newspaper correspondent in the country is read so regularly and eagerly by so many thousands of men and women as Mr. Curtis. Mr. Curtis has traveled several times around the world, visiting every country under the sun, and written a large number of brilliant and interesting letters of travel such as were never before produced by a single hand. Many of these have been reprinted in book form. One of his latest expeditions for the Record-Herald was through Mexico, resulting in a series of letters as entertaining as those he wrote a few years ago from Turkey and the Holy Land. His forthcoming letters from Ireland, Russia and Germany will rival in importance and interest any of his previous contributions.

Beginning his career in Chicago as a reporter in 1872, Mr. Curtis rapidly rose to be managing editor. He resigned that position to accept a government appointment as secretary of the South African commission. So brilliantly did he perform the duties of his office that James G. Blaine, secretary of state, placed him at the head of the Bureau of American Republics. At the world's fair in Chicago he distinguished himself as the head of the Latin-American department. He is a member of almost every learned society in Washington and of many in Europe. It is not strange that the Record-Herald prints Mr. Curtis' letter every day in the first column of the front page, and that nothing but a California earthquake can displace it from that station of honor.

Wm. Powell of Pine Creek was in Dixon Thursday.

Mrs. Gosset of Frankfort, Ind., who has been visiting here for the past few weeks with her sister, Mrs. Frank Schmucker, returned to her home this morning.

Sporting News and Notes.

For Sunday and Monday the Browns will be re-enforced by the addition of a Haney, a Chicago catcher, who will replace McDonald in the backstop position. Haney has made a record with the independents and semi-professional teams of Chicago and will be a valuable addition to the ranks of the Browns. In Sunday's game the batteries of the opposing teams will be: Dixon—Haney and Woodyatt; Morrison—Pisel and Lucas, and for Monday's game will be Haney and Seivers and Lucas and Smith respectively.

SLUG THREATENS TO DESTROY THE CHERRY TREES

Horticulturists announce that the time has arrived for people owning cherry trees to look after them. During the last few years a slug has worked on the leaves of the tree and just after the fruit is picked. This small slug eats the face from the leaves and causes them to dry up and die. They work slowly but persistently, and the result will be that many trees will be killed by the almost invisible insect. It is a soft, small-like thing and is very easily killed by almost any kind of poison spray. Some have used kerosene emulsion with good effect, and the solution does not need to be very strong.

CHILDREN'S OPERA DELICHTED ALL

STORY OF FAIRYLAND PICTURED BY MANY OF THE LITTLE PEOPLE.

CHARMING SCENES AND SONGS

Dame Fire Fly and Her Happy Subjects a Credit To Themselves and Their Instructor.

A highly increased audience greeted the last presentation of "Dame Fire Fly" at the Assembly Auditorium Thursday night and all were thoroughly pleased and enthusiastic during the entire performance. There was not a moment of time when the curtains were drawn aside but what the attention of the audience was riveted upon the stage. Fairyland was certainly present in spirit if not in fact, and the flitting host of children in fluffy gowns was a never ending charm. Miss Cundiff must be a remarkable director of children to keep them in order and have them carry out their drills and their speaking and acting parts with such perfection. In the solos and choruses was found another evidence of her painstaking and efficient drilling.

The large stage had been transformed into a dainty scene brilliantly lighted by many electric globes and was subjected to many subsequent transformations by projected colored lights. The story of the cantata is one dear to childhood, as the scenes and characters are those of fairyland. The many little people in the cast entered readily into the spirit of the production and their happy faces depicted their interest.

Uncontrollable circumstances prevented as large a patronage as the cantata should have received, so that the promoters will probably not receive much financial benefit from the affair, but those who attended are happy in the thought that they did not miss such a charming evening's entertainment.

Those who had special parts in the play are found in the following cast:

At the Garrick, Chicago.

To one who enjoys acting in the highest artistic sense, a visit to the Garrick theatre during the present run of that popular company there in their production of "Brown of Harvard," will prove a rare treat.

In Tom Brown, Mr. Henry Woodruff is a master artist. He puts his whole soul in the part and is always just a little ahead of everybody else in enthusiasm. He has studied the part conscientiously; is in touch with the conditions as they exist in one of those fitful hours just prior to the pulling off of a boat race between English and American crews, and is, we also noticed, most alive to the "quick and dead" features of audiences.

If the layman could only understand the "responsive chord" as it exists in the heart of every true player of plays, he would be much more prone to render applause in the earlier part of the play and thus offer the one and only great incentive which the actor receives from his audiences to put him on his mettle for extra effort. Mr. Woodruff touched upon this vital point in his little speech which he made the other evening after being called out repeatedly in the encores following the act and scene of the boat race at Harvard.

STATES HIS POSITION

Wm. J. Bryan Tells an Interviewer How He Stands on the Issues of 1904.

HE IS MORE RADICAL THAN EVER

As Much of a Silver Man as Four Years Ago, but Says Other Issues Are Now Dominant.

London, July 13.—William J. Bryan, having had the opportunity of reading newspapers from the United States, consented to discuss some of the questions which have been raised since he has again become prominent as a presidential possibility. He said: "I notice that I am now described by some as conservative, and in order that there may be no misunderstanding on that subject permit me to say that in one sense I always have been a conservative. The Democratic policies are conservative in that they embody old principles applied to new conditions. There was nothing new in principle in either of the platforms on which I stood. * * *

More Radical Than He Was,

"If, however, by the word conservative they mean that I have changed my position on any public question or moderated my opposition to corporate aggrandizement they have a surprise waiting for them. I am more radical than I was in 1896, and have nothing to withdraw on economical questions which have been under discussion. The only question we discussed in 1896 upon which there has been any apparent change is the silver question, and that has not been a change in the advocates of bimetallism, but in conditions. We contended for more money, and urged the free coinage of silver as the only means then in sight of securing it.

Stands by the Quantitative Idea,

"The increased production of gold has brought in part the benefit we expected to secure from the restoration of silver. The per capita volume of money in the United States is almost 50 per cent. greater now than it was in 1896, and the benefits brought by this increase have not only vindicated the quantitative theory of money, but have proven the benefits of the larger amount of money. No advocate of the gold standard can claim the triumph of his logic.

Issue Is Not Dominant.

"I believe in bimetallism, and I believe that the restoration of silver would bring still further prosperity, besides restoring par in exchange between gold and silver-using countries; but I recognize, as do all other bimetallists whom I have met abroad, that the unexpected and unprecedented increase in gold production has for the present removed the silver question as an issue.

Other Questions to Discuss Now.

"While the money question has waned in importance other questions have been forging to the front, and to these questions we must apply the same principles we applied to the money question." Bryan said that he would discuss the trust, tariff, railroad and labor questions, imperialism and other issues at length when he reached the United States, and it is presumable that these are the "other" questions he referred to, as he did not enumerate them explicitly.

HENRY C. ADAMS BURIED

His Funeral Attended by a Large Delegation of His Colleagues in the National House.

Madison, Wis., July 13.—The public funeral of Henry C. Adams took place from the Congregational church, following private services at the residence. In the large gathering were Governor Davidson and Ex-Governors Hoard, Scofield, Peck and LaFollette; Representatives Cooper, Jenkins, Weisse, Brown, Esch, Stafford, Otjen, Babcock, Miner and Davidson; the members of the Wisconsin supreme court, many members of the legislature and prominent citizens from all sections of the state.

Besides the Wisconsin delegation the following representatives were present as a committee from the house of representatives: Bede and Tawney, Minnesota; Brick, Indiana; Madden, Chicago; Boutell, Graff and Wilson, Illinois; Dawson, Iowa; Goebel, Ohio; Marshall, North Dakota; Barchfield, Pennsylvania; Overstreet, Indiana; Woodyard, West Virginia, and Hamilton, Michigan.

Theater Is a Private Snap.

New York, July 13.—The manager and proprietor of a theater has a right to say who shall enter his place of amusement and who shall not, his playhouse being a private and not a public place, is the gist of a decision handed down in the appellate division of the supreme court.

Evans Nominated for Governor.

Nashville, Tenn., July 13.—Henry Clay Evans, of Hamilton county, ex-commissioner of pensions and recently United States consul general in London, has been nominated for governor by the Republican state convention. Representative Brownlow acquiesced. The platform is standard Republican.

Hargis on the Witness Stand.

Beattyville, Ky., July 13.—Ex-Judge James Hargis, charged with the murder of Lawyer James B. Marcum, was the principal witness in the case of the state versus Hargis and Callahan. Hargis put in a general and explicit denial of the charges against him.

GRAFT IS "CATCHING OF IT"

Illinois Lawyers Turn Loose on That National Evil—Rockefeller Is Not Forgotten,

Chicago, July 13.—Graft and grafting were the subjects discussed by the lawyers of the state at the meeting of the Illinois State Bar association, held at the Chicago Beach hotel. Urging that graft be eliminated from the basis of business and political institutions, lawyers expressed their views on the existing prevalence of the evil. The principal address was made by Attorney William R. Curran, of Pekin, Ill., who took up the question of the existence and cure of graft.

He paid his compliments to John D. Rockefeller as follows in part: "Rockefeller, steel armored by hypocrisy and the doctrine of foreordination taught by his theology, plated with gold, the fruit of special corporate privilege and violated law, confidently defies punishment at the hands of his Creator and his fellowman. This individual is representative of all that class of men who have sought to use the corporation for illegal purposes and to violate their duties to mankind and the nation."

DIETZ NEVER OFF GUARD

Man Who Is Entrenched at Cameron Dam Found Ready and Watchful By the Sleuths.

Hayward, Wis., July 13.—Sheriff Gylland, of Sawyer county, Deputies Paulson and Flamrs, of Hayward, and Walters, of Black River Falls, and Detective Hooft, of Milwaukee, who left Hayward July 5 wih a team for the Dietz home to try once more to capture him, have returned once more empty handed. They say they went within fifteen rods of Dietz, but found him and his family armed to the teeth and fortresses around the farm.

All the farmers were on Dietz's side, they said, and informed him of every move of the deputies. The posse men say that Dietz can never be taken alive. Dietz has been holding up five million feet of timber belonging to the Chippewa River Log and Boom company at Cameron dam, defying both state and federal authorities to serve papers on him.

THERE WERE NO FATALITIES

All the Passengers of the Sunken Steamer Quincy Were Safely Gotten Ashore.

LaCrosse, Wis., July 13.—Carried on the backs of negro roustabouts, taken from the stern in lifeboats or jumping into waist-deep water at the prow to take refuge in a swamp swarming with insects the 200 passengers of the steamer Quincy, which was wrecked Wednesday night near Trempealeau, Wis., all have been saved. According to official announcement there was not one death in the accident, which threatened so great a catastrophe. Though nearly all of the passengers lost all of their clothes, many escaping in their night garbs to shiver for hours in a swamp before being taken to LaCrosse and Winona, not one was so much as injured.

Captain Killeen in a statement declares it is impossible to place the blame on any one. He declares the accident was unavoidable. T. M. Kane, of Clinton, Ia., has returned from the wrecked boat, where he had found under his mattress his pocketbook containing money and valuable papers.

DIED BY HIS SISTER'S HAND

Man Who Shot Down a "Holy Roller" in Turn Killed By the Woman He Was "Avenging."

Seattle, Wash., July 13.—Esther Mitchell shot and killed her brother, George Mitchell, in the waiting room of the Union station. The shot was fired just as Mitchell rose to take the evening train for Oregon. The brother, who was acquitted last Tuesday of killing Franz Edmund Creffield, the leader of the "holy rollers," dropped in his tracks. Esther Mitchell was at once arrested.

Esther Mitchell, the murderess, is the sister to avenge whose treatment George shot Creffield. She had refused to have anything to do with her brother since the shooting. Charles Mitchell, the father of the family, and his daughter Esther had just reached a reconciliation. For some days the girl had refused to see her father.

Would Read the Bible More.

Cleveland, O., July 13.—Important action was taken at the convention of the National Catholic Educational association when the prelates and priests present declared by vote in favor of a wider and more extensive reading of the scriptures in the parochial schools. This was in fact a declaration in favor of the reading of the new testament in those schools. In that respect it marks a radical departure from established policy.

Strikers Capture the Camp.

Cody, Wyo., July 13.—One hundred strikers have taken possession of the government camp at Corbett Tunnel on the Shoshone reservation works, eight miles from Cody, and have created a reign of terror. TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer in Dixon.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the urine when the kidneys are well are retained in the body when the kidneys are sick. Kidneys and bladder get inflamed and swollen, crowding the delicate female organs nearby and sometimes displacing them. This is the true cause of many bearing-down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness, and rheumatic pain.

When suffering so, try Doan's Kidney Pills, the remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Dixon woman tell you about Doan's Kidney Pills.

Mrs. E. E. Page of 603 Chamberlain St., North Dixon, says:—"It gives me considerable pleasure to recommend a medicine which brings such quick and thorough relief as Doan's Kidney Pills. I went to Leake Bros. drug store for a box when suffering severely with pain in my back which clung to me persistently, far too long to be pleasant. The treatment undoubtedly benefited me. I will be only too pleased to say a word for Doan's Kidney Pills when opportunities present themselves."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

VICTORY FOR DREYFUS

His Long Fight for His Honor Is Crowned with Complete Success.

SUPREME COURT ACQUITS HIM

Declares Him Entirely Innocent of His Enemies' Charges.

Requires No Retrial of the Case—Government Takes Prompt Action in Reparation of the Wrong Done.

Paris, July 13.—"This has been a long and terrible ordeal. I began to feel that it would never end. It is clear that the decision restores me to my old place in the army, but I am not aware of the intentions of the government

CAPTAIN ALFRED DREYFUS.

concerning my advancement in rank. I have nothing to say against my accusers. Being again an officer I am obliged to obey the army regulations of silence, and I am inexpressibly thankful to all those who have assisted in the maintenance of truth."

Vindication After Eleven Years.

Thus spoke Captain Alfred Dreyfus, when the decision of the supreme court was announced to him, which decision annuls his condemnation, and does it without requiring him to stand a new trial. In fact his vindication is complete, and the man who on Jan. 5, 1895, was publicly degraded for, as alleged, and confirmed by a court martial, communicating French military secrets to a foreign power, and who ever since then has fought the decision that degraded him, has triumphed and his enemies are beaten to earth, with their perjured testimony piled on top of them.

Decision Was Unanimous.

The decision of the court was read yesterday by the presiding judge, M. Ballot-Beaupre, president of the court of cassation, consisting of forty-nine judges, and was unanimous. The palace of justice was thronged by an eager crowd seeking admission to the court room. Among those present were Mathew Dreyfus, brother of Alfred Dreyfus; Maitre Mornard, counsel for the captain; Joseph Reinach, the historian of the Dreyfus affair; Colonel Picquart, Madame Zola and many others who have figured in various stages of the celebrated case. Captain Dreyfus was not present, continuing his habitual secrecy by remaining secluded in the garret where he has hitherto been cut off from the outer world.

VINDICATION IS TWO-FOLD

France Will Not Half Do the Reparation She Will Make.

His vindication is two-fold, the supreme court first announcing its decision establishing the entire innocence of the accused man, and the ministry later deciding to present an urgent bill in parliament restoring Dreyfus to the army with advanced rank, and

COLONEL PIQUART.

otherwise giving the government's most ample reparation. The decision of the court was a foregone conclusion, as exhaustive inquiries had completely demolished the fabric of the accusation against Dreyfus, showing that the real culprit was Major Count Esterhazy. The decision therefore annulled the condemnation of the Rennes court martial and ordered that the acquittal be posted and published throughout France.

The ministers held a protracted special session at the Elysee palace under President Failieres, and determined on the government's course in carrying out the decision. The text of two bills was formulated which will be introduced in the chamber of deputies at once, concerning respectively Dreyfus and Colonel Picquart, with the object of restoring both to the ranks they would have held if they had continuously served in the army. Dreyfus consequently will be nominated a major, with eventual early promotion to a lieutenant colonelship. Picquart will immediately become a brigadier general.

Dreyfus' name also will be inscribed on the list for the Legion of Honor, but he will not be directly nominated to that distinction, though probably a decree placing him on the list will shortly appear. Discussions of the bills will be taken up immediately and the ministers will endeavor to have them pass both houses at a single session of each, the cabinet desiring to settle the matter before the parliamentary vacation in order to avoid a recurrence of the agitation of the country. Deputy Breton has given notice of a bill providing for the transference of Emile Zola's remains to the Pantheon with a public ceremonial.

BRIEF HISTORY OF THE CASE

How Col. Picquart Paid for Wanting a Square Deal.

Captain Alfred Dreyfus, of the artillery, a member of a wealthy Hebrew family of Alsace, where he was born in 1859, was on Oct. 14, 1894, arrested on the charge of communicating French military secrets to a foreign power. Two months later Dreyfus was tried by court martial and found guilty, and Jan. 5 he was publicly degraded and deported to Devil's island, near Cayenne, French Guiana, there apparently to spend the remainder of his life. The friends and relatives of Dreyfus, notably his wife, always believed in his innocence, and devoted all their energies to the work of proving that he had been unjustly condemned.

Colonel Picquart, when he became chief of the intelligence department of the French army in 1895, examined the documents in the proceedings against Dreyfus and questioned the correctness of the proceedings, and continuing his investigations formed the opinion that the evidence pointed to Major Count Esterhazy as being the guilty man. Picquart determined to see that justice was done, and there ensued a fight to preserve the honor of the French army.

Dreyfus, on Nov. 15, 1897, charged Esterhazy with writing the most incriminating document, but the latter was acquitted by a court martial in the following January. The late Emile Zola warmly espoused the cause of Dreyfus and made serious charges against the French general staff, and was condemned to pay a heavy fine and suffer imprisonment, but the sentence was quashed.

When M. Cavaignac became head of the French war office he read in the chamber of deputies several document which, he said, proved the guilt of Dreyfus. Colonel Picquart afterwards charged that these documents were forgeries, for which he was arrested and degraded.

JUVENILE LAW CONDEMNED

Sheriff Held That It Does Not Do What It Is There for and Is Useless.

Des Moines, Ia., July 13. — The juvenile law as it is observed in Iowa, Illinois, Colorado and other states was vigorously condemned at the annual convention of the Interstate Sheriffs' association, at which 100 sheriffs from sixteen different states were present.

C. W. Schnurr, president of the Iowa Sheriffs' association, made the principal address, denouncing the juvenile law, alleging that it failed to restrict the youthful criminal and was of no assistance in reforming the boy who still had some good left in him. Other sheriffs took the same view. The next convention of the association will be held in Milwaukee.

SHE NEEDS THE MONEY

Chicago Does, and She Is Drilling for Property That Pays No Taxes.

HOPES TO UNEARTH $100,000,000

Attack on Political Assessments — Bucking Broncho Raises Cain — Furniture Feeds a Fire.

Chicago, July 13.—No more men so honest that they desired their personal property taxes increased have appeared before the board of review, but Attorney John O'Shaughnessy, who represents the city, hovered about the board's rooms for a time and declared that some dishonest people would be forced to pay on larger appraisements this year. O'Shaughnessy's plan for increasing the revenues of the city is merely to have the law enforced and impose a penalty on all those wealthy citizens who fail to make a schedule of their personal property.

Field Estate, for Instance.

If he is successful in his efforts the Field estate, for instance, will be forced to pay personalty taxes on at least $26,000,000. These figures are secured by adding 50 per cent to the appraisement of $17,500,000 as a penalty for not filing a schedule. Other estates and rich individuals are in the same position, according to Corporation Counsel Lewis and his colleagues. If the penalties are affixed, as the law is said to provide, it is believed the taxes that will flow into the coffers of the city will be greater than the riches brought home by Roman armies.

Hopes of the City Tax Lawyers.

The city's special tax lawyers hope to add at least $100,000,000 to the personal property valuation this year. They propose to pursue the opulent to the supreme court, if necessary. O'Shaughnessy spent the afternoon in going over the city council records seeking statements made by representatives of the gas, electric, telephone and traction companies when it was to their interest to have a large amount of money invested. These will be compared with later statements when the material interests of the company were shown to be much more modest.

CAMPAIGN ASSESSMENTS

Chicago Official to Bring a Suit That May Result in Protecting Public Employes.

Chicago, July 13.—In a suit which Colonel James J. Healy says he will bring against Charles W. Vail, clerk of the superior court, and in which he will demand the return of $200, Healy expects to secure a ruling from the supreme court that will protect public employes from the levying of campaign assessments. Colonel Healy, who was chief clerk in the office for twenty years, asserts that he gave $200 to Vail for use in the campaign of 1904, when Vail was nominated for clerk of the superior court.

The oral contract entered into at that time, he says, Vail has broken. This contract, according to Colonel Healy, stipulated that he was to be retained as chief clerk in the event of Vail's election; and if Vail was defeated the money was to be returned to Healy. Although Colonel Healy was not retained in office, he asserts that he did not receive his $200.

Attack on the Parole Law.

Springfield, Ill., July 13.—The parole system was attacked by Lieut.-Gov. Sherman in an address delivered before the Illinois State's attorneys' association. He said this law was a stupendous mistake. He said that of all the criminals paroled most of them had returned to their bad life. The association elected J. Bert Miller of Kankakee county, president, and Herman H. Brown, of Schuyler county, secretary and treasurer.

Bucking Broncho Stampedes.

Granite City, Ill., July 13.—A half score persons was injured, five painfully, by the stampede of a bucking broncho during the performance of a Wild West show at the Tri-Cities street fair. Shortly after the animal made its appearance a section of the temporary seats collapsed, with a loud report. The broncho became unmanageable and dashed among the wreckage, trampling upon those caught beneath the seats.

Came Near Being a Tornado.

Rockford, Ill., July 13.—A heavy wind and rain storm broke over Rockford causing considerable damage to trees and crops. The wind at one time was almost a tornado. A train of eleven cars on the Illinois Central railroad was blown along the track three blocks, numerous trees were blown down and several plate glass windows were broken.

Too Hot for the Seventh.

Springfield, Ill., July 13.—With the government thermometer registering a maximum of 93 degrees two prostrations from heat were reported in the Seventh infantry, Illinois National Guard, at Camp Lincoln while drilling.

Furniture Warehouse Burned.

East St. Louis, Ill., July 13.—The warehouse o fthe Hug Furniture company, containing stock valued at $40,000, was destroyed by fire, entailing a total loss of about $60,000.

Jewelers Hold a Meeting.

Springfield, Ill., July 13.—The Illinois State Jewelers' association held its annual meeting here.

OLD SORES OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to Cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real seat of the trouble is in the blood and cannot be reached by external remedies, and soon the sore will return. After awhile the deadly poison begins to eat into the surrounding flesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with Cancer. Cancerous ulcers often start from a boil, wart, mole or pimple, which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers and sores is the remains of some constitutional disease or the effects of a long spell of sickness. S. S. S. goes down to the very root of the trouble and cures so thoroughly that there is never any sign of the trouble in after years. As soon as the system gets under the influence of S. S. S. the place begins to improve, the discharge gradually grows less, the inflammation leaves, the flesh resumes its healthy color, and soon the sore is well, because every vestige of the cause has been removed from the blood. Book on sores and ulcers and medical advice without charge.

I was suffering greatly from a cancerous ulcer on my left breast, which had begun to eat, and at times would discharge very offensive matter. I knew the trouble was hereditary as an only sister, my mother and two of her sisters died of Cancer. I am fully satisfied I would have gone the sameway but for S. S. S., which cured me.

LA FOLLETTE SETS STOP WATCH ON HIS TONGUE

Audience At Waterloo, Iowa, Hears Alarm Go Off, and Then He Explains.

Waterloo, Ia., July 13—Senator La Follette, who has appeared before the chautauqua here, carries an alarm watch in his pocket. When he had been speaking an hour yesterday all of a sudden the audience was startled by the insistent ringing of a bell.

The senator stopped and when the noise had ceased explained that of late he had talked so much that he had been advised by his physicians that he must limit himself to one hour. But he said that when he got going on trusts and corruption he lost sight of time, and kept on until he was exhausted.

"To let me know that my hour is up, my wife," he said, "bought me this alarm watch," holding up a time piece the size of a teacup. "So now before I begin I wind this up to go off in sixty minutes. That saves me and helps my hearers," whereupon everybody laughed.

Then the Wisconsin statesman began all over again, and with no alarm piece to warn him, talked for another hour and forty minutes.
